

# GastroMend-HP™

HELPS TO ALLEVIATE STOMACH PAIN AND HEARTBURN ASSOCIATED WITH FUNCTIONAL DYSPEPSIA  
60 VEGETARIAN CAPSULES | NPN80105115 | GHM060-CN

GastroMend-HP™ is a formulated blend of complementary botanical extracts and nutrients to support a healthy microbial balance within the upper gastrointestinal (GI) tract and to help maintain gastric mucosal health. This unique formula combines vitamin C, zinc L-carnosine, mastic gum, methylmethionine chloride (MMS), and deglycyrrhizinated licorice (DGL) extract. GastroMend-HP™ may be helpful in attenuating occasional bloating, heartburn, or stomach discomfort.

The stomach lining contains a thick mucus layer that protects it from the harsh gastric acidity necessary for digestion and for killing unwanted organisms. Supporting the health of the mucosal layer is important for maintaining stomach comfort and microbial balance. Mastic gum has a long history of use in the Mediterranean where it was chewed as gum. Mastic gum helps to relieve

occasional stomach discomfort and promotes microbial balance. Methylmethionine sulfonium (MMS) is found abundantly in red cabbage and is a derivative of the amino acid methionine. MMS may support mucosal health throughout the digestive tract.

DGL is a well-researched botanical for supporting the normal repair and maintenance of a healthy mucosal lining throughout the GI tract. It serves to coat and soothe the intestinal lining and may help neutralize the effects of oxidative stress. The DGL in this formula features GutGard®, a patented form of highly concentrated, flavonoid-rich licorice extract to promote its potency and effectiveness. Zinc L-carnosine may help maintain a healthy microbial balance and offers further support for the mucosal lining. Vitamin C is known for helping support normal tissue regeneration and its antioxidant properties.

## Benefits

- Supports gastrointestinal health
- Promotes digestive microbial balance
- Supports gastric mucosal health

## Recommended Dose

Adults: Take 2 capsules twice a day before a meal, or as directed by your health care practitioner. Take a few hours before or after taking other medications. For use beyond 2 weeks, consult a health care practitioner. Refer to the product label for dosing instructions, age-appropriateness, and relative risk statements. Healthcare practitioners are encouraged to use clinical judgement with case-specific dosing based on intended goals, subject body weight, medical history, and concomitant medication and supplement usage.

## Highlights

- Delivered in a quick-release capsule that dissolves easily for fast action
- Per four capsule daily dose, GastroMend-HP™ provides:
  - 500 mg of vitamin C (as ascorbic acid)
  - 75 mg of zinc L-carnosine (yielding 17 mg of zinc)
  - 1 g of mastic gum (sap tears)
  - 200 mg of methylmethionine sulfonium (vitamin U)
  - 150 mg of deglycyrrhizinated licorice extract (as GutGard®)
- Gluten-free, dairy-free, soy-free, and non-GMO
