GI Revive™

HELPS SUPPORT GASTROINTESTINAL HEALTH
225 G POWDER | NPN80052003 | GIR225-CN

GASTROINTESTINAL HEALTH

GI Revive® is formulated with specific amino acids, botanical extracts, and minerals to offer comprehensive support for gastrointestinal (GI) health and function. The gastrointestinal lining has unique functions and nutritional needs. It must be permeable or porous enough for nutritional absorption, yet also provide a barrier against toxins, allergens, and pathogenic microbes. GI Revive® features L-glutamine, an amino acid that provides structural and metabolic support for intestinal cells.

Zinc L-carnosine provides support for the health of the intestinal lining. N-acetyl-D-glucosamine supports a normal inflammatory response in the GI tract.

GI Revive® also contains a botanical blend of deglycyrrhized licorice (DGL) extract, aloe vera, marshmallow, okra extract, and cat's claw that provides support for healthy intestinal function by coating and soothing the intestinal lining, and these ingredients promote the body's natural gastrointestinal repair process. Prune powder and citrus pectin support bowel regularity. Methylsulfonylmethane (MSM) supports the structure, integrity, and permeability of the GI cell walls and a healthy inflammatory response.

GI Revive® is sweetened with stevia leaf extract and can be mixed into any beverage or functional food powder. GI Revive® supports gastrointestinal tract health, a healthy inflammatory response, and healthy intestinal function and regularity.

Benefits

- Gastrointestinal tract health
- Healthy intestinal function and regularity
- Gut-associated immune function
- Healthy intestinal mucosal lining
- Healthy inflammatory response

Recommended Dose

Adults: Add one scoop (approx. 1 tbsp/8g) to water or juice, stir briskly and consume immediately once daily, or as directed by your health care practitioner. Take a few hours before or after taking other medications or health products. Maintain adequate fluid intake. For use beyond 12 weeks, consult a health care practitioner. Refer to the product label for dosing instructions, age-appropriateness, and relative risk statements. Healthcare practitioners are encouraged to use clinical judgement with case-specific dosing based on intended goals, subject body weight, medical history, and concomitant medication and supplement usage.

Highlights

- Delicious peach flavour and is sweetened with stevia
- Provides 1.5 grams of L-glutamine, 1 gram of citrus pectin, and 1 gram of N-acetyl-D-glucosamine per serving
- Contains a blend of botanicals designed to support gut health, including DGL, marshmallow, and cat's claw
- Chelated form of zinc L-carnosine for optimal support of GI health
- Non-GMO ingredients
- Gluten-free, dairy-free, and soy-free
