

Inflammatone™

SUPPORTS A HEALTHY INFLAMMATORY RESPONSE

60 CAPSULES | NPN80052006 | INF060-CN

MUSCULOSKELETAL HEALTH

Inflammatone™ is a comprehensive blend of specialized protein-degrading or proteolytic enzymes, polyphenols (plant chemicals), and botanical extracts formulated to promote a healthy inflammatory response and support the body's ability to break down specific protein structures that are produced during the natural inflammatory process.

When taken on an empty stomach, proteolytic enzymes can help break down damaged tissue. Curcumin, ginger,

and Boswellia have been used for centuries in Chinese and Ayurvedic medicine to help modulate the production of inflammatory compounds in the body. Quercetin, rutin, resveratrol, and rosemary contain phytonutrients that may help protect cells from excess oxidative stress. By supporting a healthy inflammatory response and antioxidant status in the body, the ingredients in Inflammatone™ may be helpful for supporting the body's response to inflammation.

Benefits

- Promotes a normal inflammatory response
- Helps maintain healthy joints
- Supports the body's antioxidant status
- Used in Herbal Medicine as an anti-inflammatory to help relieve joint pain

Recommended Dose

Adults: Take 2 capsules once daily with food, or as directed by your health care practitioner. For prolonged use, consult a health care practitioner.

Warning: Not recommended for use by pregnant or lactating women.

Highlights

- Contains InflammEnz™ — a clinically researched proprietary proteolytic enzyme blend that is highly resistant to stomach acid
- Formulated to contain botanical extracts standardized to meet targeted amounts of bioactive ingredients
- Provides targeted amounts of turmeric and ginger root extract, and rosemary leaf extract
- Includes the polyphenols quercetin, rutin, and resveratrol
- GMO-free
