

S-Acetyl Glutathione Synergy

ANTIOXIDANT SUPPORT TO HELP PROTECT CELLS AGAINST OXIDATIVE DAMAGE CAUSED BY FREE RADICALS
60 VEGETARIAN CAPSULES | NPN80085261 | SAG060-CN

S-Acetyl Glutathione Synergy is a unique formula providing 174 mg of glutathione (from 200 mg of S acetyl glutathione), 10 mg of vitamin B6 (as P5P), and 1 g of N acetyl L cysteine (NAC) per 2 capsules to help support antioxidative status and cellular health. Glutathione (GSH) consists of amino acids, namely cysteine, glutamine, and glycine. GSH is considered the body's "master" antioxidant, which is critical for the maintenance of antioxidative balance and helping to protect cells from the effects of oxidative stress.

Vitamin B6, or pyridoxine, is a molecule that metabolizes into cofactors for more than 100 enzymes in the human body. Vitamin B6 transforms in the body into an active coenzyme pyridoxal 5 phosphate (P5P). The intake of vitamin B6 may help support cellular health and energy metabolism. NAC, a derivative of the amino acid cysteine, is a critical precursor to glutathione. It may also help by supporting antioxidative status in the body by promoting normal glutathione levels and neutralizing reactive oxygen species. S Acetyl Glutathione Synergy may help support antioxidative status and cellular health.

Benefits

- Promotes healthy antioxidative status
- Promotes normal cellular functioning and repair
- Supports nutrient metabolism

Recommended Dose

Adults 19 years and Older: Take 2 capsules per day with meals or as directed by a healthcare practitioner. Refer to the product label for dosing instructions, age-appropriateness, and relative risk statements. Healthcare practitioners are encouraged to use clinical judgement with case-specific dosing based on intended goals, subject body weight, medical history, and concomitant medication and supplement usage.

Highlights

- Provides 174 mg of glutathione from S-acetyl glutathione, 10 mg of vitamin B6 (as P5P), and 1 g of N-acetyl-L-cysteine per daily dose to support antioxidative status and optimal cellular health
- Gluten-free, dairy-free, and soy-free
- Non-GMO
